MODULE

Module: Architectural Internship Opportunity

Overview

Module is a Pittsburgh-based startup at the forefront of innovation in the real estate and construction industry.

Module's Vision is to build a world where everyone lives in a well-designed space they are proud to call home. Our mission is to create a 21st-century residential development ecosystem that delivers better-designed, quality-built, energy-efficient, attainable housing, all through the power of offsite construction.

Module is seeking an Architectural Intern to support our Design and Sales teams. Module is looking for someone who can work independently and collaboratively with our teams as we look to scale our new business volume.

Responsibilities
- Assist the design team in creating Feasibility Studies for new customers, including a complete zoning analysis and site test fits
- Developing 3D "massing" models of our standard product lines to present to clients
- Perform materials research (including sourcing, reaching out to vendors, and pricing)
- Work independently as needed and seek feedback from architect/design leadership
- Participate in design team meetings

Preferred Skills
- AutoCAD
- Revit
- SketchUp
- Rendering Software (V-Ray, Podium, etc.)
- Adobe Suite: Photoshop, InDesign, Illustrator

Expectations

This is a hybrid position with an expected workload of approximately 20-30 hours per week. In-person meetings will take place at Module's office in Garfield. This is a paid internship at a rate of $20 per hour.

How to apply

We are accepting applications on a rolling basis. Interested candidates should submit their application as soon as possible for consideration.

Please send your resume and cover letter along with relevant examples of your work or a link to your portfolio to info@modulehousing.com with the subject: "Architectural Intern."
